livraison immédiate

MADE
IN FRANCE

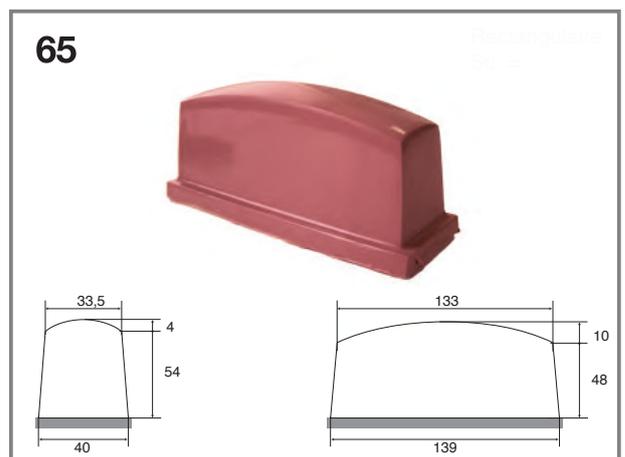

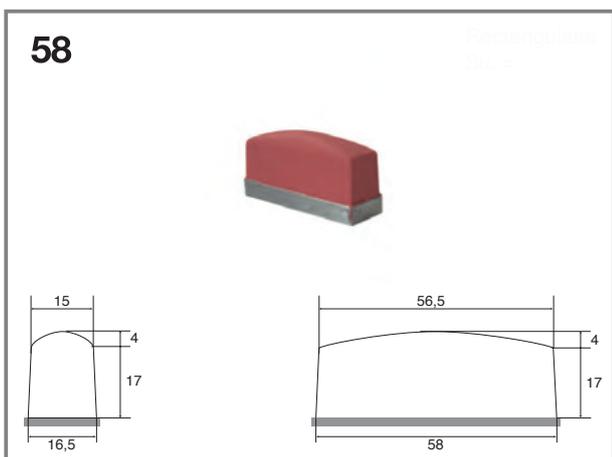

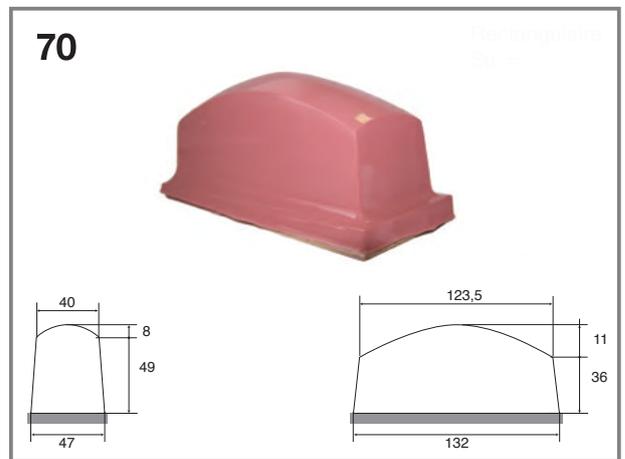

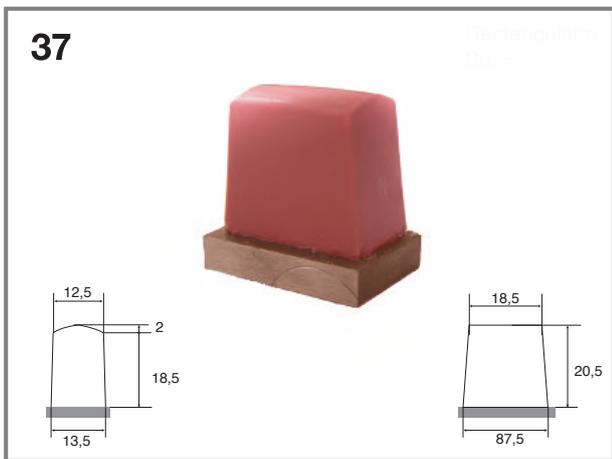

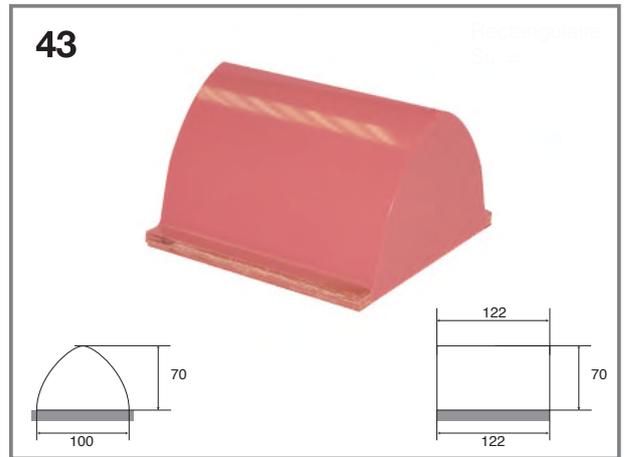

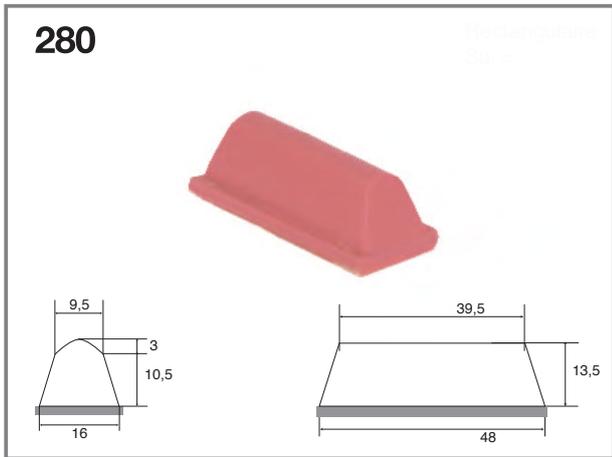

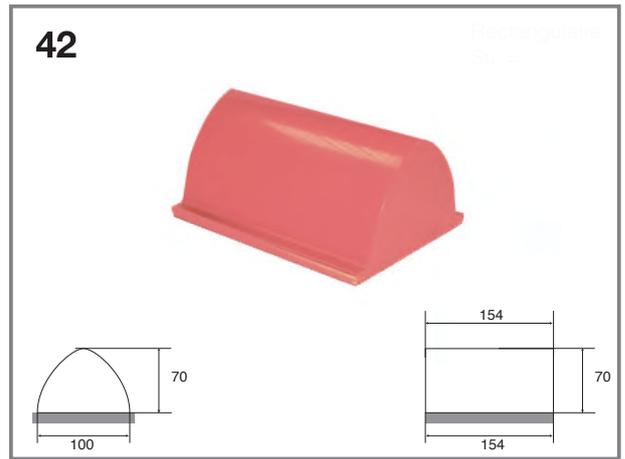

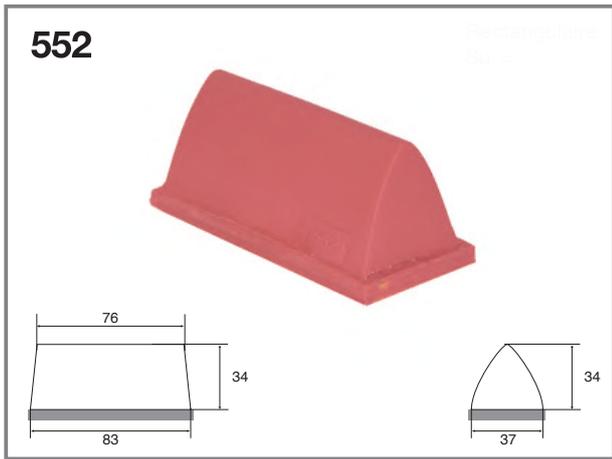

IMPORTANT

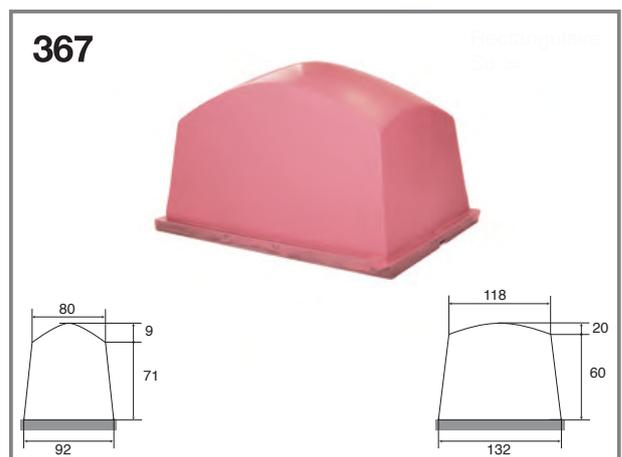

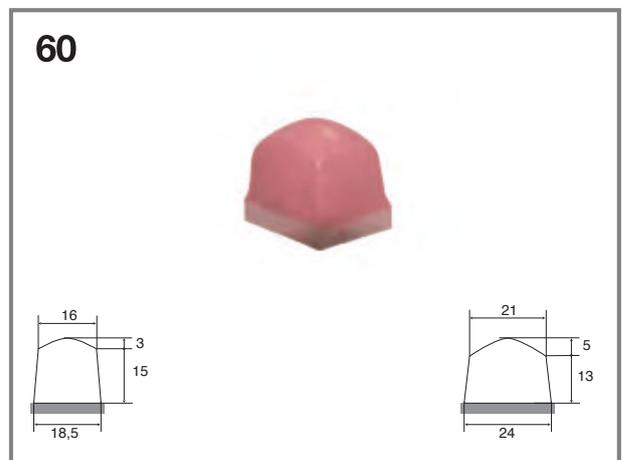

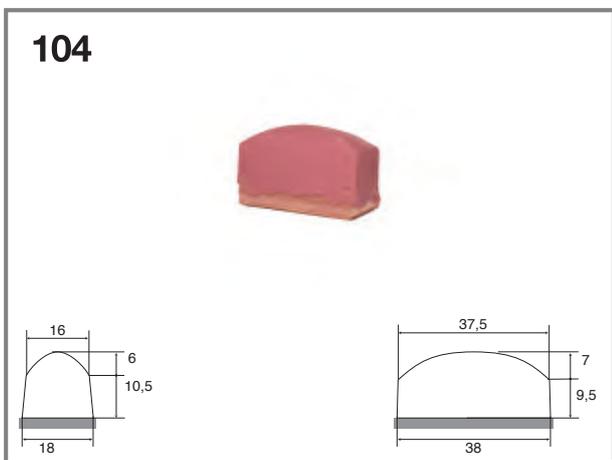

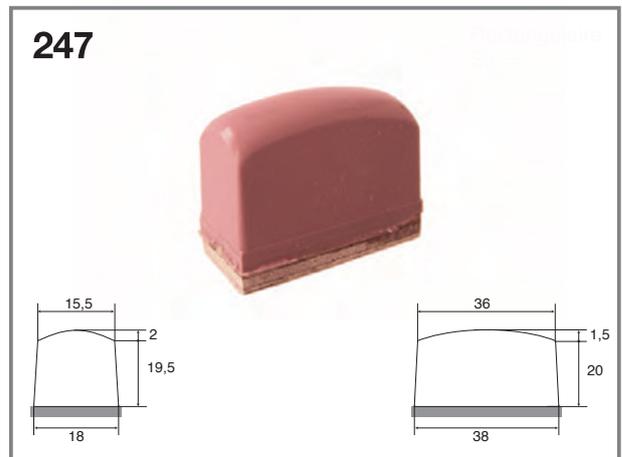

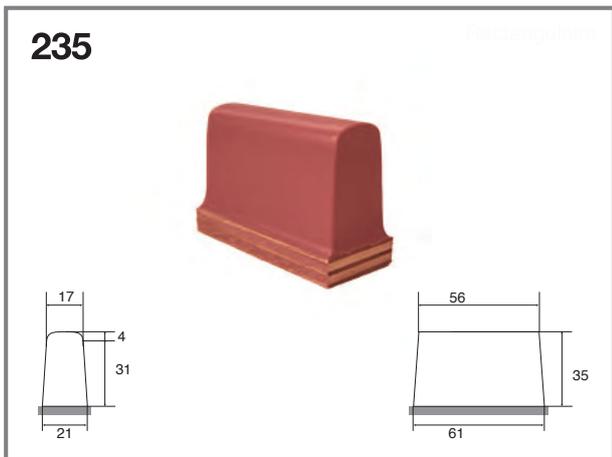

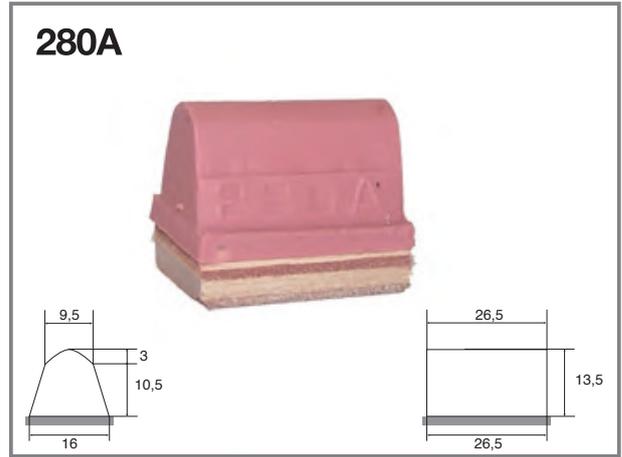

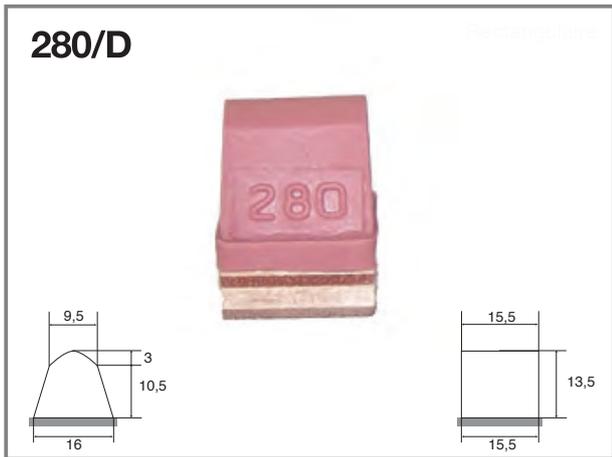

Nous avons sélectionné une qualité de silicone qui répond au mieux aux exigences de la tampographie, un bon report de l'encre, une grande résistance mécanique, et une grande longévité à l'utilisation.

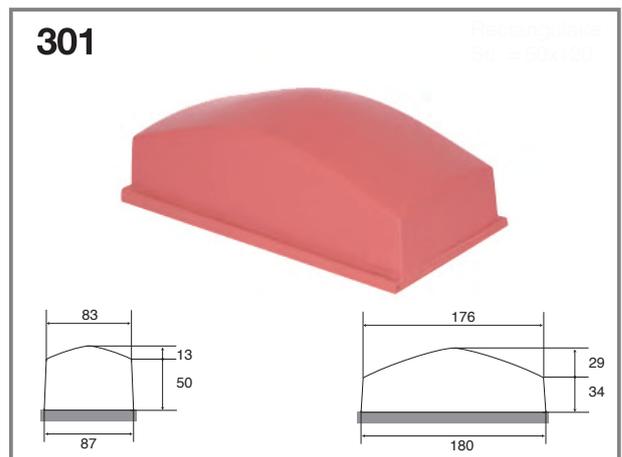

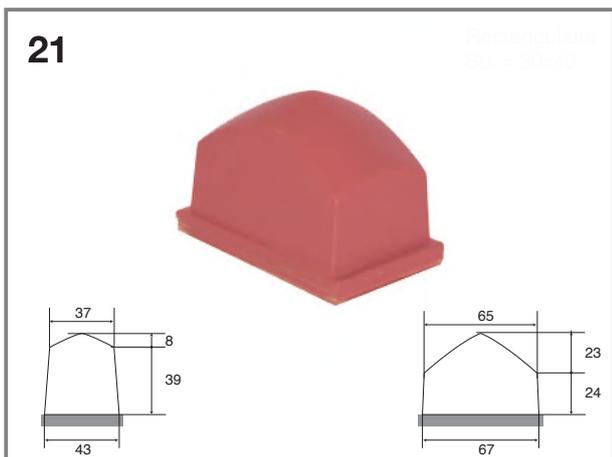

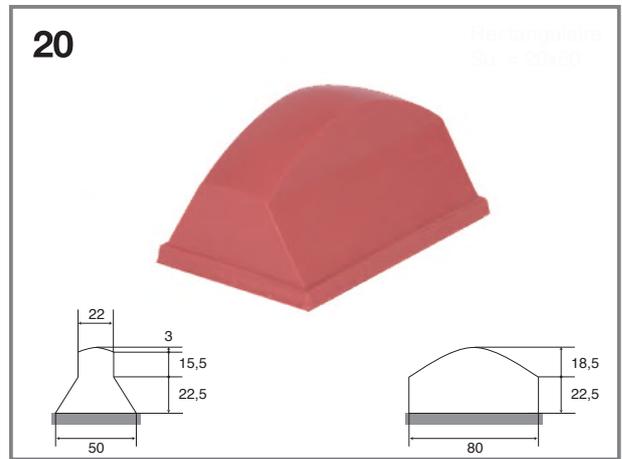

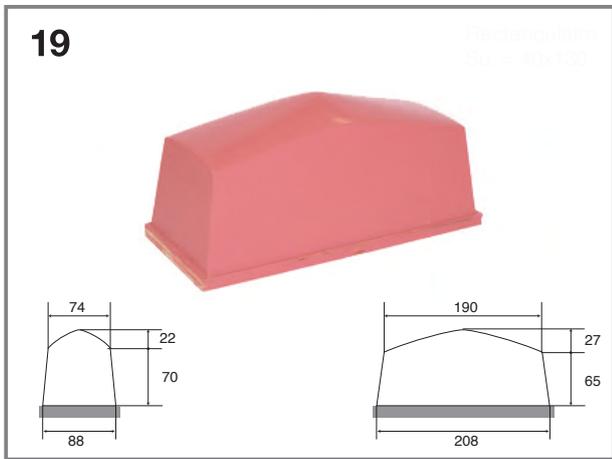

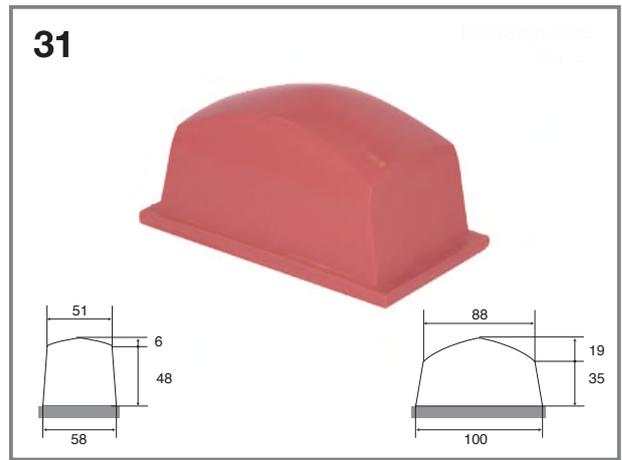

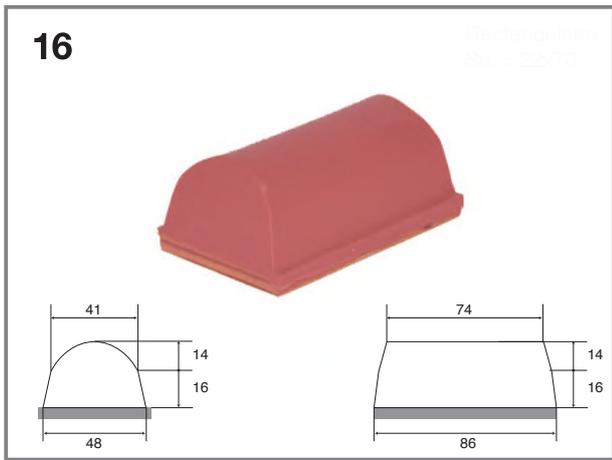

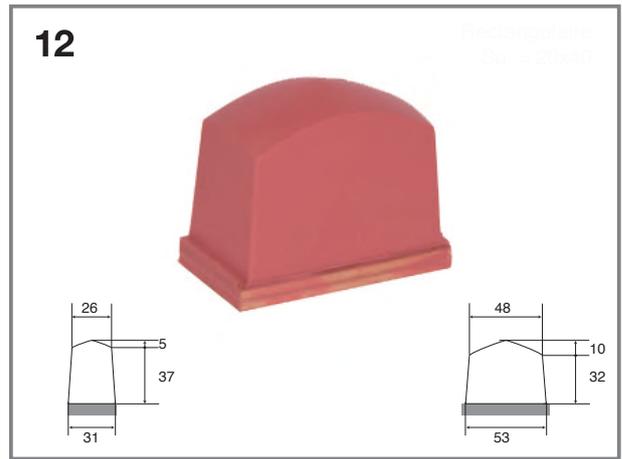

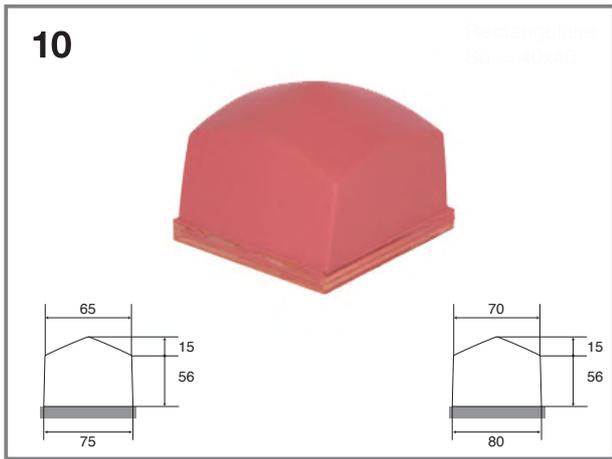

Nos tampons sont livrés en standard, sur support bois, avec une dureté de 4 à 5 shore, bien entendu, nous pouvons à la demande changer le support ou la dureté.

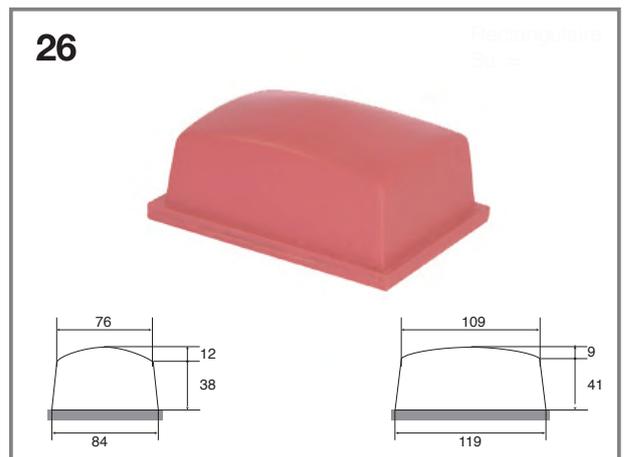

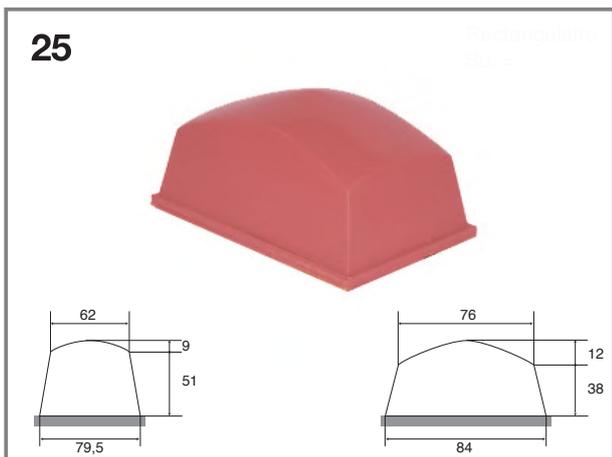

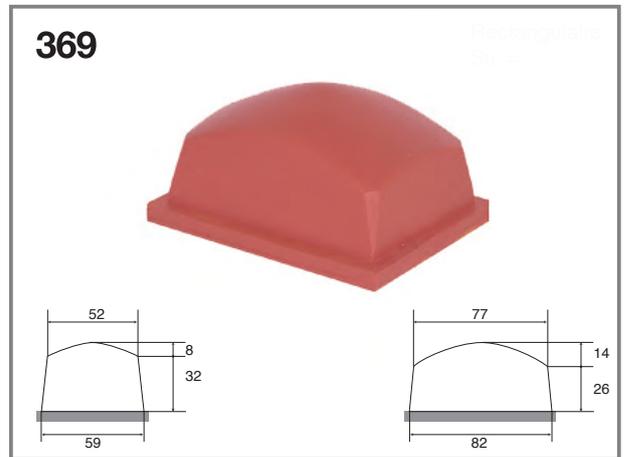

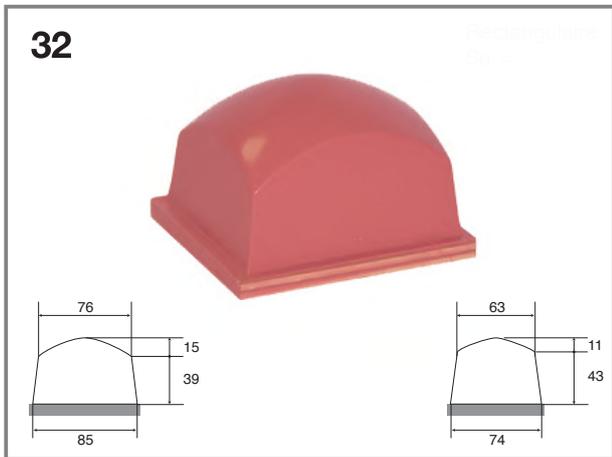

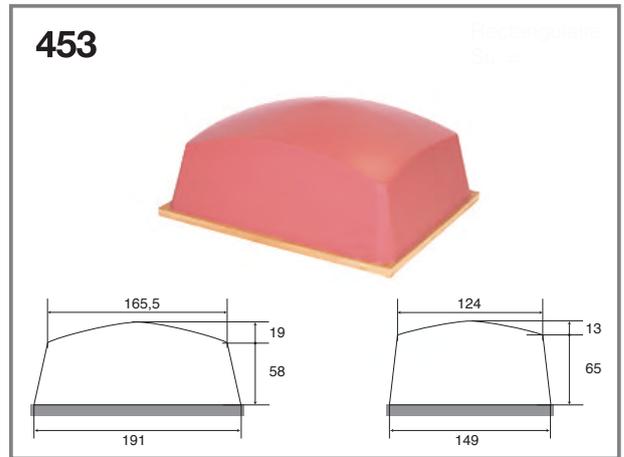

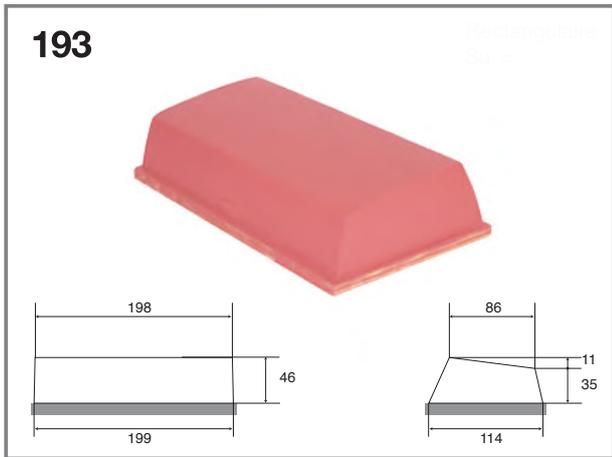

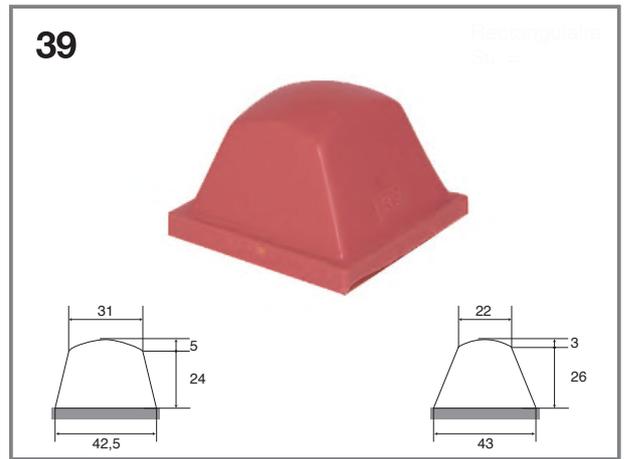

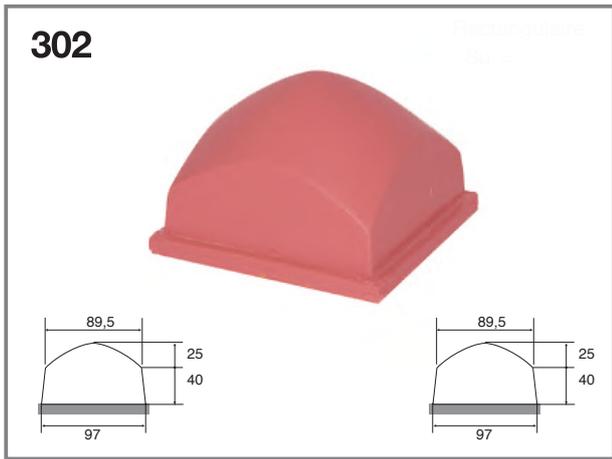

Nous développons également des formes à la demande, à partir des pièces à imprimer, ou d'un cahier des charges.

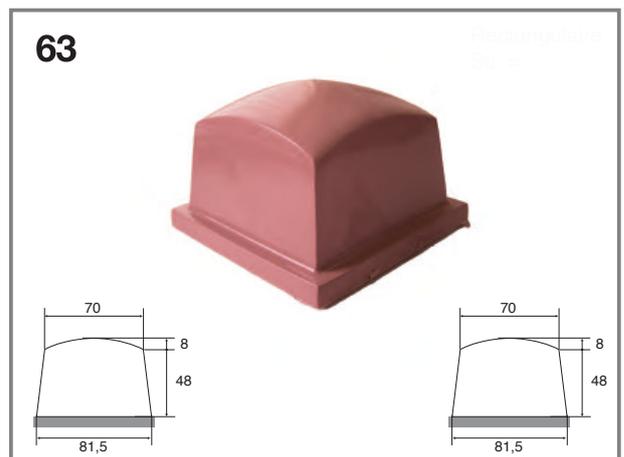

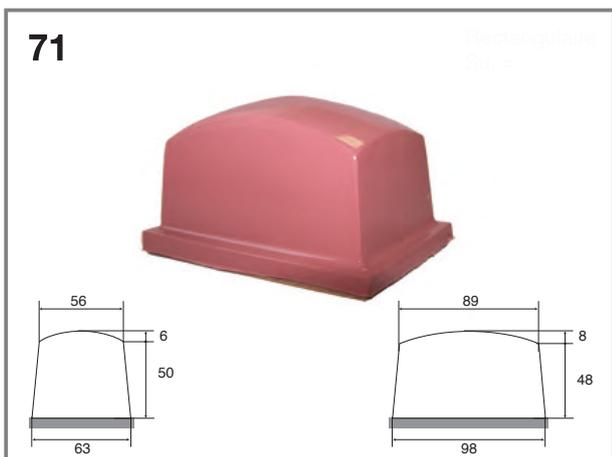

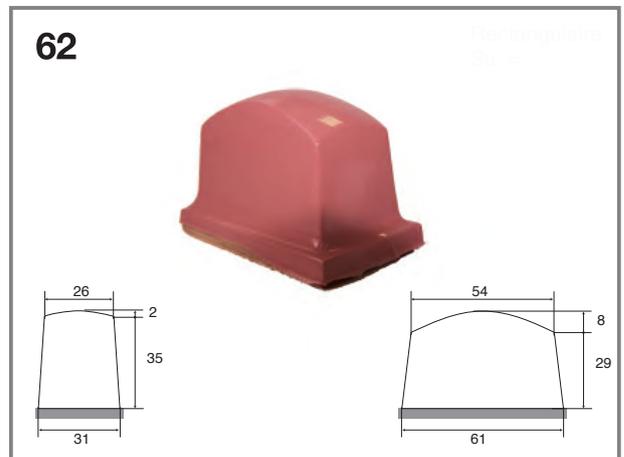

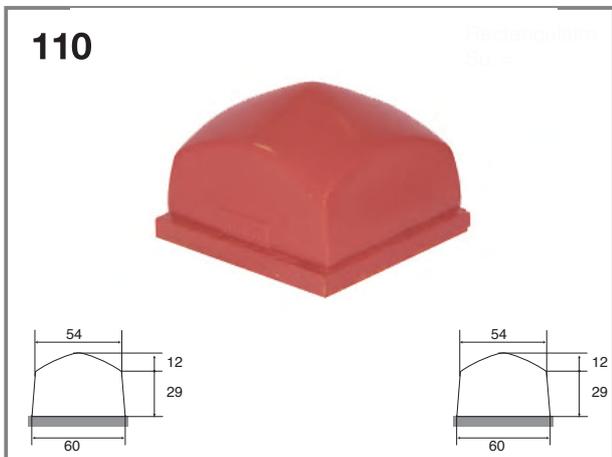

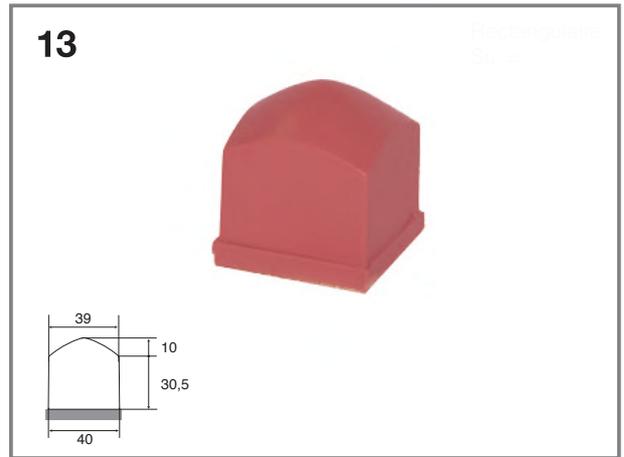

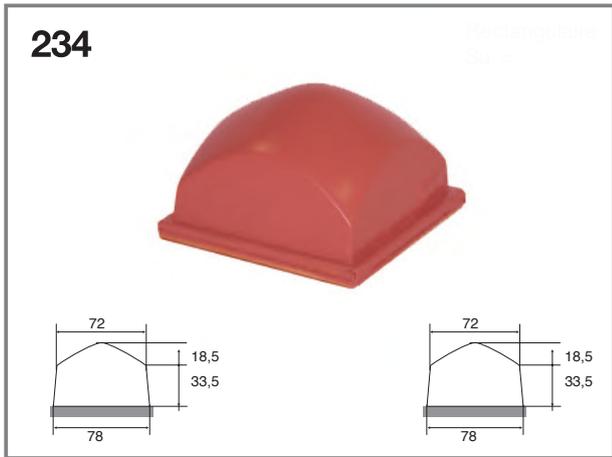

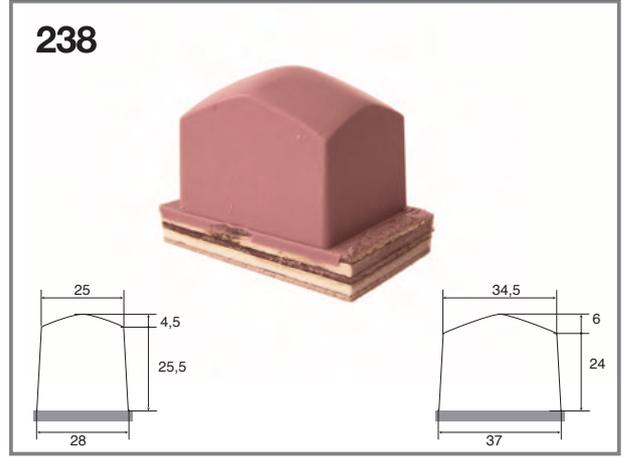

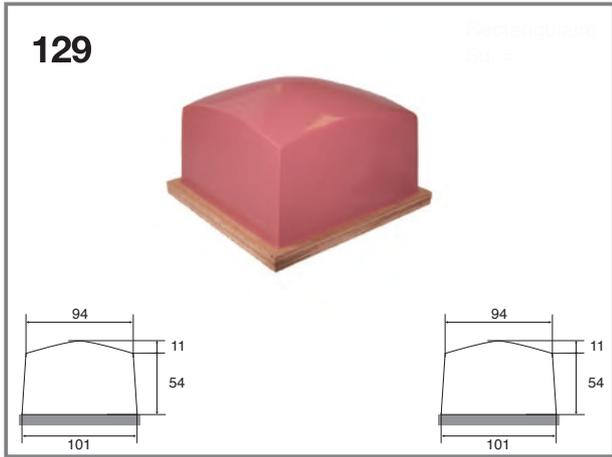

Les cotes indiquées sur le catalogue sont purement indicatives.
